IMPACT: State & Local

Summary of Legislation: This bill repeals a law scheduled to take effect July 1, 2001, that would prohibit a licensed physician from prescribing or otherwise providing for a patient any amphetamine, sympathomimetic amine drug, or compound designated as a Schedule III or Schedule IV controlled substance for purposes of weight reduction or to control obesity: (1) unless the physician makes certain determinations concerning the patient; and (2) for more than three nonrefillable 30 calendar day supplies in any 365 day period.

Effective Date: Upon passage.

Explanation of State Expenditures: This bill repeals a statute containing provisions for a Class D felony for prescribing or providing under certain circumstances. Repeal of the statute eliminates any fiscal impact that might have occurred due to the criminal penalty.
